1 . Introduction

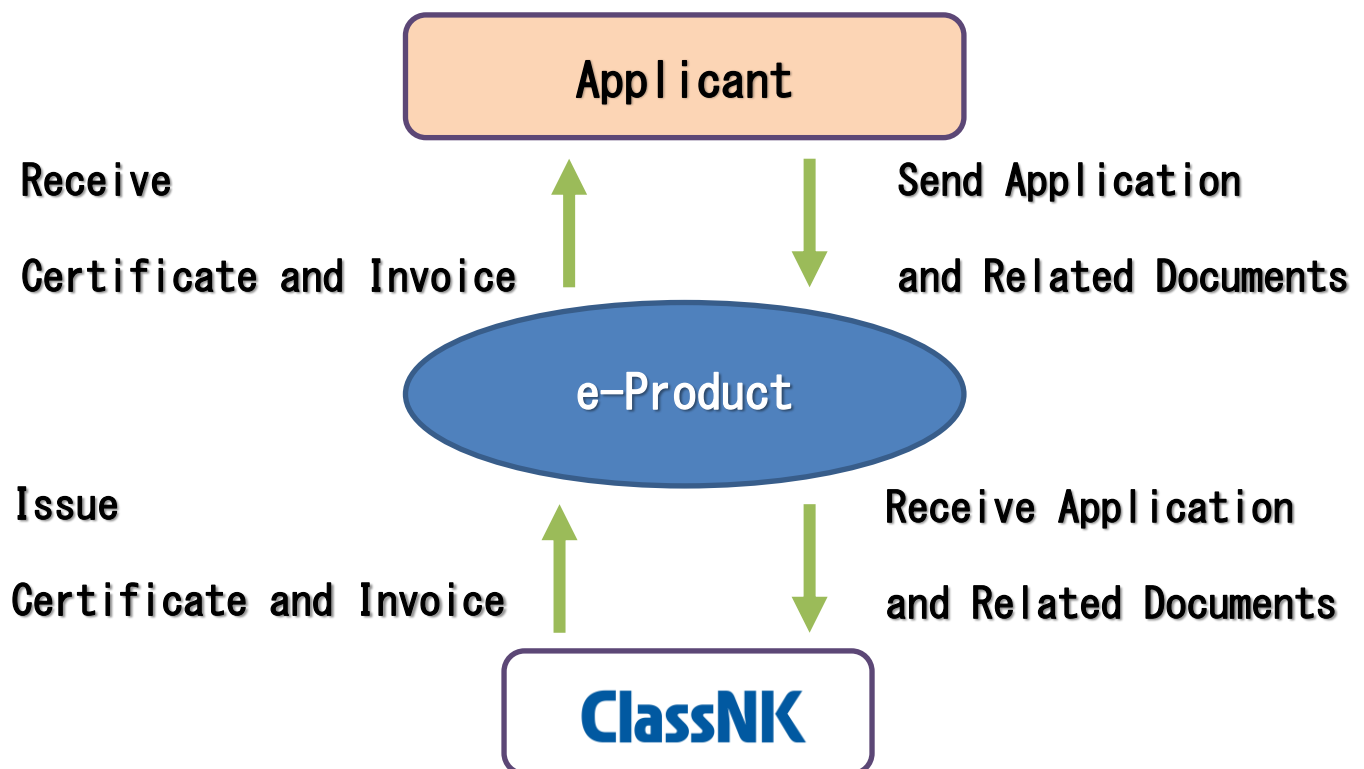

1.1 What's ClassNK e-Product?

✓ System overview

"Class NK e-product" (hereinafter referred to as "e-product") is web service system, which allows that user can apply the inspection for marine equipment (Individual inspection for Material, Device, Equipment etc.) and obtain NK Certificate and Invoice.

✓ Function of e-Product

- ✓ User can complete whole process from submission of application to reception the certificate statement and invoice.

- ✓ "e-product" automatically sends E-mail for notification to the applicant when system completes each process. (Reception of application, issuance Certificate & Invoice, etc.)

✓ System requirements

The following in table is required to use “e-Product” system.
In case where user uses other browsers or software, it may lead malfunction. Please also note that even with the browsers and software listed in the confirmed operating environment, other factors may cause the site to malfunction.

Browser	Internet Explorer 11 Microsoft Edge Google Chrome Mozilla Firefox
Software to PDF reader	Acrobat Reader (Adobe Reader)

1 . Introduction

1.2 Registration of e-Product accounts.

✓ **Make a new account**

Access to the below URL and open the e-product web page

<https://me-portal.classnk.or.jp/me-portal/>

- ① Click the 「**Company Account Creation**」.

E-mail address

Password

Please enter the letters shown above

Login

Company Account
Creation

Forgot your
password?

If your company is using e-Product for the first time, the representative user must first create a company account. Please add users from the company account.

- ② Enter the e-mail address and click 「Next」.

After clicking the "Next" button, an authentication code will be sent to the e-mail address you entered.

Next >

- ③ Confirm "Authentication Code" received by e-mail.

Thank you for your entry into e-Product.
Please enter the following code/data to register/update your personal information.

▼ Authentication Code

 364828

- ④ Fill in "Authentication Code" and click 「Next」.

Enter the code received at

If you do not receive an e-mail, please check to see if it has been sorted into your spam folder.
If you do not find it, return to the previous screen and enter your e-mail address again.

< Back

Next >

⑤ Fill in company information and click 「Next」.

1 . Introduction

1.5 Set up email notifications

✓ You will automatically be informed of the progress of your application by email, but you can customize when you receive it and who receives the email updates.

- ① On the logged-in screen, click on “Settings” in the top right-hand corner.

- ② Click on “Email notifications settings”.

- ③ Click on “○” to select whether to receive.

A screenshot of the 'Email notifications' settings form. The form has a table with columns for 'Receive immediately', 'Receive in bulk (once a day)', and 'Unnecessary'. Each row represents a different notification type, and each column has a radio button. The 'Receive immediately' column is highlighted with a red dashed box. To the right of the table, there are 'Broadcast email' buttons for each notification type. At the bottom, there are 'Back' and 'Save' buttons.

	Receive immediately	Receive in bulk (once a day)	Unnecessary
